OPTICAL CAPE TECHNICAL RESERVE - ENTEL

VIEW FROM ABOVE

TOLERANCE:
+/- 1,00mm.

TOLERANCE:
+/- 1,00mm.

APPLICATION:

The Technical Reserve Set is used for the storage of fiber optics in rope.

MATERIAL:

The Technical Reserve is MANUFACTURED IN PP OR NYLON in the color PANTONE: 2C4197 (DARK SLATE BLUE), depending on the customer's need, both raw materials are composed of ANTI-UV additives so that after its application, the RESERVE does not damage in relation to exposure to U.V. rays, in this way it can be installed in any region with different climatic conditions.

LOGO: The reservation contains the logo of the manufacturer and the operator ENTEL (high relief) with dater.
